FREOPEDIA HERITAGE TOUR

Fremantle is the first City in Australia to have a QR code project like this, it is a virtual tour of its heritage sites.

Freopedia lets you explore Fremantle at your leisure accessing the stories behind what made Fremantle what it is today. Simply download the QR Code phone application and take a walking tour of Fremantle by scanning the plaques on buildings, statues and the historical sites shown on the map.

Freopedia is based on the original QR pedia concept developed by Wikimedia UK for Monmouth, Wales. The name itself comes from the commonly used "Freo" in reference to Fremantle and "pedia" an online shorthand way to refer to an encyclopaedia.

HISTORY OF FREMANTLE

Fremantle has been a part of WA since it was first settled by Europeans in 1829. Find out about the people, places, and events that helped to shape our city.

FREOPEDIA is a community project created by Wikimedia Australia and Fremantle Society it links to online Wikipedia Articles in over 200 languages through QR technology.

Take this map and explore the streets of Fremantle revisiting our City's rich heritage. From the notorious Moondyne Joe to the lives of John Curtin and Herbert Hoover, from riots, exploration, to great deeds on sporting fields and battle fields alike.

Read the stories of Fremantle from the Dreamtime to the present day through wars, recessions, and mining booms it is all here.

Literally hundreds of hours of research for the development of online articles have been put together by volunteer organisation Fremantle Society. This is a collaborative project between Wikimedia Australia and the Fremantle Society it has been supported by the City of Fremantle, State Records Office and Fremantle Ports.

Funding for the plaques and marketing materials have been provided by the Fremantle Business Improvement District (BID).

To scan QR Codes you need a scanning app, which can be downloaded for free from the app store on your device (i.e. the iOS App Store or Google Play Store). Just search for 'QR Code'.
